25X1

The sketch below, not drawn to scale, is of the curtain of wire between the masts at the radio station near Yana (N 42-44, E 23-34) Novoseltsi Okoliya. There are six pairs of horizontal double strands attached to booms and four pairs of vertical double strands attached to the triatics.

Comment: It is probable that the distances between the various sets of wire are equal, but the size of the rectangles thus formed is unknown.
